6. Presentation on the Los Angeles County Court Closures.

- Assistant Chief Michel R. Moore, LAPD (14-0122)

Assistant Chief Michel Moore, Los Angeles Police Department (LAPD), reported that Los Angeles County has been faced with downsizing and shortage in funding as relates to court services throughout California. He stated that law enforcement has few opportunities to express to Commissions and public assembly's good news pertaining to the state's fiscal crisis and the downsizing of services that has affected the entire region throughout the recession.

During the first eight months of the court realignment, downsizing court operations in Los Angeles County, the Honorable Judge David Wesley and staff worked diligently to organize a scale back that has minimal impact on law enforcement particularly LAPD. There were many

consequences that LAPD and prosecutors viewed as negatives and how LAPD would interact with the court system and on public safety. LAPD met with Judge Wesley and his staff and they began to map out all the various activities and court functions on the criminal and civil side. Through the complex operation they identified the stakeholders and were able to balance out their needs. Many problems arose, such as, the closure of the juvenile court in south Los Angeles and having to redirect the cases to another court. When LAPD identified the likeliness of gang violence and retaliation on the families, the court immediately redirected the cases to a more neutral court or other location. Similarly with East Los Angeles court the impact would have involved LAPD picking up and transporting arrestees and paperwork to East Los Angeles from downtown. With hearing LAPD, District Attorney, public defender and others concerns, Judge Wesley found a solution to maintain the cases within the Criminal Courts Building.

AC Moore concluded by saying the impact of court closures and downsizing has been minimized. LAPD hopes the closures are not permanent and hopes that local courts can be reopened and services returned to a neighborhood level. Secondly, they wish to see technology continue to advance forward in the criminal justice system so that the department can benefit from the electronic filing system and electronic case management as opposed to the paper system. He further stated that they are looking to the Commission for support.
